Galle, Sri Lanka

PROFILE

Passionate and self-driven software engineer with over 1.5 years of hands-on industry experience, currently serving as Associate Software Engineer at Agrithmics (Pvt) Ltd. Skilled across the full stack — building enterprise-grade ERP systems, AI-powered platforms, and scalable web applications using React, .NET Core, Next.js, and SQL Server. Pursuing a Higher National Diploma in Software Engineering at NIBM (GPA 3.81). Like on the rugby field, I bring discipline, fast adaptability, and a team-first mindset to every sprint.

WORK EXPERIENCE

Associate Software Engineer Agrithmics (Pvt) Ltd

May 2025 – Present

- ▶ Led full-stack development of AgriGen ERP an enterprise tea/agricultural estate management platform serving Bangladesh and Sri Lanka, built on React + Material-UI v4, .NET Core C# with Clean Architecture, Dapper ORM, and SQL Server.
- ▶ Architected a Multi-Pack Invoice Configuration feature using a Bridge Table pattern enabling backward-compatible schema changes across 7 screens with a unified SQL view (vw_InvoicePackSummary) and a React MultiPackInput component.
- ▶ Engineered complex SQL stored procedures and CTEs for KPI dashboards, field-wise P&L reports, and estate-division reporting hierarchy with a 17-file React component refactor.
- ▶ Debugged critical production issues including a JavaScript toISOString() timezone bug causing Green Leaf receiving weight deductions to shift dates in IST-to-UTC conversion.
- ▶ Implemented Polly retry policies and structured NLog error logging across AccountPayable and InvoicePayment repositories in C# backend.
- ▶ Deployed applications through Azure DevOps CI/CD pipelines; hosted on Azure VMs.

Intern Software Engineer Agrithmics (Pvt) Ltd

Dec 2024 – May 2025

- ▶ Contributed to AgriGen ERP, Cargills Supplier Chain, and Balangoda Plantation Procurement System.
- ▶ Built responsive React UI components integrated with .NET backend APIs via Axios.
- ▶ Implemented Redis caching and RabbitMQ-based data load processing pipelines.

PROJECTS

MediChainLK | Next.js 15 · NestJS · FastAPI · React Native Expo · Prisma · Firebase · AWS · Neon

- ▶ AI-powered pharmacy management platform for Sri Lanka with India/Bangladesh expansion full Turborepo monorepo with admin/pharmacy portals and mobile app.
- ▶ Integrated Google Cloud Vision OCR + spaCy med7 NLP for prescription reading, Firebase Custom Claims RBAC (4 roles), and adapter pattern for delivery/payment providers.
- ▶ Hosted on AWS Mumbai with PickMe Flash, Grasshoppers, PayHere, and WEBXPAY integrations.

FileFlowOne (FYP) | Next.js 14 · TypeScript · Python FastAPI · sentence-transformers

- ▶ Open-source, privacy-first universal file conversion app at fileflow-one.vercel.app with research direction on edge-based SLMs for semantic data transformation.
- ▶ Designed and implemented the Semantic Fidelity Index (SFI) a novel cross-format semantic preservation metric: $SFI = 0.35 \cdot S_{\text{structural}} + 0.45 \cdot S_{\text{semantic}} + 0.20 \cdot S_{\text{functional}}$ via Python FastAPI microservice with all-MiniLM-L6-v2.

Eventure – Event Ticketing System | *Next.js · Tailwind CSS · Ballerina · PostgreSQL*

- Placed 5th among 100 university teams at the 'Innovate with Ballerina' hackathon; enabled ticket sales, photo submissions, and QR-based event verification.

Care32 – Dental Clinic Management | *Next.js · Tailwind CSS · Supabase*

- Full clinic operations platform covering patient management, doctor schedules, treatment records, and appointment bookings with real-time features and secure auth.

MinistoreX | *Kotlin · Jetpack Compose · Room DB · Supabase · Hilt*

- Android debt-tracking app for small shops. Features bilingual support (Sinhala/English), theme switcher, and Supabase cloud sync.

TECHNICAL SKILLS

Frontend	React JS, Next.js 14/15, Material UI v4, Tailwind CSS, Framer Motion, Hero UI, shadcn/ui
Backend	.NET Core (C#), NestJS, FastAPI (Python), Ballerina, Dapper ORM, REST APIs
Mobile	React Native (Expo), Kotlin, Jetpack Compose, Room DB
Database	SQL Server, PostgreSQL, MySQL, Supabase, Prisma, Redis
DevOps	Azure DevOps, CI/CD Pipelines, Azure VMs, AWS, Firebase, Vercel
Messaging	RabbitMQ, Google Cloud Vision, spaCy NLP
Languages	JavaScript, TypeScript, C#, Python, Java, Kotlin
Tools	Git / GitHub, Turborepo, Agile / Scrum

EDUCATION

Higher National Diploma in Software Engineering

Nov 2022 – Nov 2024

National Institute of Business Management (NIBM), Galle GPA: 3.81

GCE Advanced Level – Physical Science Stream

2021

Vidyaloka College, Galle

REFEREES

Mr. Vishwa Rathnayake

Product Owner & QA Engineer — Agrithmics (Pvt) Ltd
